

EXPERIENCE

Upwork

JULY 2018 - PRESENT

Freelance Front End Engineer / Designer

- Collaborated with clients from diverse industries to build easy-to-navigate landing pages.
- Translated Figma designs to interactive and responsive Vue components.
- Created captivating animation background components.
- Ensured compliance with ADA accessibility guidelines, implementing accessibility features.
- Delivered high-quality work within tight deadlines, demonstrating strong time management.

OL Print

MAY 2019 - DECEMBER 2019

Graphic Designer

- Collaborated with clients and the printing team to create custom graphics for a local print shop.
- Developed artwork and layouts for various print and digital collateral, including signage, banners, posters, T-shirts, and flyers.
- Received 95% positive feedback from clients.
- Worked within project constraints, such as deadlines, to deliver projects on time and within scope.

PROJECTS

Wanderlust Nomad

2023 - (IN PROGRESS)

- Built Wanderlust Nomad, a travel planning app using Vite.js and Vue.js composition API, with a flexible JSON-based data structure for adaptability and future integrations.
Technologies: Vue.js Composition API, Vite PWA Plugin.

Codequests

2023 - (IN PROGRESS)

- Crafted CodeQuests, a progressive web app for devs to manage side projects. Used Vue.js, Firebase, and Vue PWA plugin to deliver an installable experience across devices.
Technologies: Vue.js, Vite PWA Plugin, Firebase.

Kittens World

FEBRUARY 2023-(IN PROGRESS)

- Built Kittens World, a purrfect website for cat lovers like myself, built with Vue.js and Tailwind. Integrated the Cat API to showcase a gallery of adorable felines and breed information.
Technologies: Vue.js, Tailwind CSS, The Cat API

Techie Stuff

MARCH - APRIL 2020

- Mastered the Jamstack approach by crafting a blog using Greedsome and GraphQL API. Seamlessly integrated Vue.js components and Markdown to deliver rich content and an engaging user interface.
Technologies: Vue.js, Markdown, GraphQL, and Gridsome.
